

## Study Group – Tuesday, Nov 7, 2017 -- PROPORTION

I (Janet) will be teaching about proportion at the Tuesday Study Group meeting.

Please bring:

Choose colors of fabric or paper that work together. Three fabric or papers will be used as the design on the fourth fabric or paper. The fourth piece about 8"x10" will be used as the background paper or fabric. Having misty fuse on the back of the top fabrics before the class will expedite finishing a design.

(I know how some of us fast forward to the finish line.)

Scissors and a pencil or pins to help with cutting shapes using patterns.

If someone wants to make their own patterns (or buy them), they should be graduated sizes, preferably three or more of the same basic shapes. I am bringing sets of shapes to use as patterns - rectangles, stars, hearts, triangles and some odd shapes.
