Study Group is Tuesday May 2nd at 6:30 at downtown Dayton Metro Library Parkside study room 2B.

Shannon will lead us in a Van Gogh Starry Night inspired project. Please bring:

1. Night sky colored fabric (dark blue, subtle pattern is ok). Ironed flat. We will be painting this fabric during class time to create our own textile. Size can vary but I'd recommend a piece around 10-12" x 8-12"
2. A piece of cardboard to tape your night sky fabric to for painting. I will bring tape. I used the back cardboard from an old sketch pad. Paint dries quickly but it should travel well taped to the cardboard while also protecting the table.
3. Small round paintbrushes and paint pallet/ plastic or paper plate for mixing paint.
4. I will bring fabric paint. If you have any fabric paint you can bring it.
5. Navy/Black fabric for the silhouette.
6. Pencil and paper to design the silhouette. You may bring an idea for a silhouette with you (tree/houses/animals).
7. White/yellow fabric for accents.

During class you will create the background fabric and may have time to design a silhouette. I would recommend a fusible attached to your silhouette fabric for ironing on once background dries.
