

## STANDARD PREPARATION FOR HANGING A QUILT

1. Each quilt must have a **hanging sleeve** on the back of the quilt. Usually this is a 4" sleeve. For directions on how to make a sleeve go to [http://quilting.about.com/od/decoratingwithquilts/ss/quilt\\_sleeve.htm](http://quilting.about.com/od/decoratingwithquilts/ss/quilt_sleeve.htm)
2. Each quilt must have a **slat** that fits in the sleeve. The slat usually is wooden and about the width and thickness of a normal ruler. It should be cut about 1" shorter than the width of the quilt, but longer than the sleeve. The bat has a hole drilled in each end. A wire or nylon filament may be attached to hang the quilt.
3. Each quilt should have a permanent **label** on back, which (at a minimum) identifies the maker of the quilt. It also can include: name of quilt, date quilt was completed, contact info of quilter and © of designer.
